

HRP, GAPDH Monoclonal Antibody

A01025

Product Information

	Product Name: HRP Conjugated Anti-GAPDH Mouse Monoclonal Antibody (2B5)		
	Applications: WB		Isotype: Mouse IgG1
	Reactivity: Human, Rat, Mouse, Monkey, Dog, Chicken, Hamster, Rabbit, Pig, Sheep.		
REF	Catalog Number: A01025	LOT	Lot Number: Refer to vial
	Formulation: Liquid		Size: 50ul /200ul/1ml
	Storage: Store at -20°C. Avoid repeated freeze / thaw cycles.		Note: Contain sodium azide.

Background: Glyceraldehyde 3-phosphate dehydrogenase (abbreviated as GAPDH or less commonly as G3PDH) is an enzyme of ~37kDa that catalyzes the sixth step of glycolysis and thus serves to break down glucose for energy and carbon molecules. In addition to this long established metabolic function, GAPDH has recently been implicated in several non-metabolic processes, including transcription activation, initiation of apoptosis ER to Golgi vesicle shuttling, and fast axonal, or axoplasmic transport.

Application Notes: Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows: WB (1:1,000-1:5,000).

Storage Buffer: PBS, pH 7.4, containing 0.02% sodium azide as preservative and 50% glycerol as stabilizer.

Storage Instructions: Stable for one year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing.

Fig. WB analysis (1:1,000) of GAPDH expression in HeLa cell lysates with HRP Conjugated Anti-GAPDH Mouse Monoclonal Antibody (2B5).
